

AT-1450

BIOS Update

UEFI

1. Download BIOS Update Package.
2. Place **TSEiflashCh64** and **startup.nsh** on the USB drive root directory

3. **Note:** USB port on cradle does not support bootable USB drive. Please use the USB port on docking station.

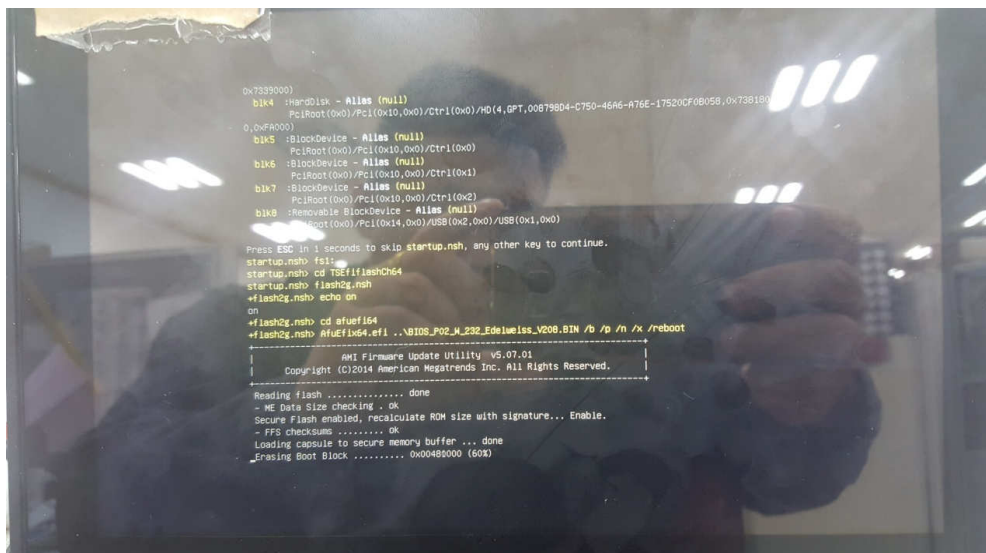

4. Turn on the unit and press the **F7** key to invoke boot menu.

Select **UEFI: Built-in EFI Shell**

5. BIOS update starts automatically.

After BIOS update, at the first time power up, the machine will shut down immediately. After that, it will power up normally.
